**Amedeo select AerData CMS and STREAM software**

Amsterdam, The Netherlands; 6<sup>th</sup> November 2014 – AerData, the provider of software and services for the aviation industry announces that Amedeo, a widebody aircraft lessor based in Dublin, has selected AerData CMS and STREAM software.

Corporate Management System (CMS) is an industry-leading platform that supports all business processes in aircraft lease and asset management. Secure Technical Records for Electronic Asset Management (STREAM) is the industry's foremost web-based solution used by some of the world's largest airlines, lessors and MROs to manage aircraft and engine records.

David Nixon, Chief Technical Officer, Amedeo said "The selection of an appropriate suite of dedicated aircraft leasing tools was an important step in creating an actively managed operating leasing platform. Nixon continued, "The comprehensive solution offered by CMS and STREAM covers the main scope of our initial contract & document management software requirements and is delivered in a secure platform, accessible worldwide by staff and customers using the AerData dashboard."

Commenting on the announcement, Mark Nieuwendijk, Managing Director of AerData said "We are delighted and very proud to announce Amedeo as a new CMS and STREAM customer. Amedeo is unique as the world's first dedicated widebody leasing specialist and we look forward to supporting them and contributing to their success."
