Amsterdam, The Netherlands; 8th March 2017 – AerData, a Boeing Company, announced today that ST Aerospace Resources Pte. Ltd. (ST Aerospace Resources), a subsidiary of Singapore Technologies Aerospace Ltd., has chosen AerData's Corporate Management System (CMS) to support their fleet of aircraft. CMS is a single platform that facilitates the consolidation and management of data from multiple sources. CMS mitigates risk and enables lessors to smoothly run their business by providing them with full control and oversight of their asset values, contract information and technical details.

AerData's Corporate Management System is an industry leading platform that supports all business processes in aircraft leasing and asset management. CMS is web enabled and accessible via a secure and encrypted internet connection 24/7.

Commenting on the announcement, Matthew Bull, CEO of AerData said, "We are delighted to announce ST Aerospace Resources as our latest CMS customer. CMS will provide ST Aerospace Resources with a solid platform to manage and expand their activities using an industry standard lease and asset management system."

Yip Hin Meng, SVP / GM, ST Aerospace Resources Pte. Ltd. said, "AerData has proven themselves in providing aircraft asset and lease management systems. We are confident that their corporate management system will facilitate our business model and support the achievement of our goals. We look forward to growing our aircraft leasing portfolio utilizing their solution."

About AerData

AerData, a Boeing Company, provides lease management, records management, engine fleet planning and audit and inspection software as well as technical and back office services for aircraft and engine operators, lessors and MROs. With a strong customer focus, AerData delivers a reliable and secure service to its clients using latest technologies and state of the art infrastructure.

AerData is part of the Digital Aviation business unit within Boeing Support and Services. Boeing offers the industry's largest portfolio of support and services solutions, providing customers a competitive advantage by solving real operational problems, enabling better decisions, maximizing efficiency and improving environmental performance – intelligent information solutions across the entire aviation ecosystem.

About ST Aerospace Resources

ST Aerospace Resources is the aircraft leasing subsidiary of ST Aerospace with a portfolio of mid-life aircraft assets from the Airbus A320/A321, Airbus A330 and Boeing 737NG family. In addition to aircraft leasing, ST Aerospace Resources also provides technical and financial expertise to manage, evaluate and re-market aircraft assets.
